28 **Section 2.** Section 81-23-302, MCA, is amended to read:

29 **"81-23-302. Establishment of minimum prices.** (1) The board shall, by adopting rules, fix minimum
30 producer prices for ~~class I, class II, and class III~~ milk by ~~adopting rules in a manner prescribed by the Montana~~

1 ~~Administrative Procedure Act~~ classes of utilization of milk as defined by the department.

2 (2) The board shall establish prices by means of flexible formulas that must be devised so that ~~they~~ the
3 formulas bring about automatic changes in all minimum prices that are justified on the basis of changes in
4 production, supply, processing, distribution, and retailing costs.

5 (3) The board shall consider the balance between production and consumption of milk, the costs of
6 production and distribution, and prices in adjacent and neighboring areas and states so that minimum prices that
7 are fair and equitable to producers and consumers may result.

8 (4) The board shall, when publishing notice of proposed rulemaking under authority of this section, set
9 forth the specific factors that must be taken into consideration in establishing the formulas and, in particular, in
10 determining costs of production and of the actual dollars and cents costs of production that preliminary studies
11 and investigations of auditors or accountants in ~~its~~ the department's employment indicate will or should be shown
12 at the hearing so that all interested parties will have an opportunity to be heard and to question or rebut the
13 considerations as a matter of record.

14 (5) Specific factors may include but are not limited to the following items:

15 (a) current and prospective supplies of milk in relation to current and prospective demands for milk for
16 all purposes;

17 (b) the cost factors in producing milk, which must include among other things the prices paid by farmers
18 generally, as used in parity calculations of the United States department of agriculture, prices paid by farmers
19 for dairy feed in particular, and farm wage rates in this state;

20 (c) the alternative opportunities, both farm and nonfarm, open to milk producers, which must include
21 among other things the prices received by farmers for all products other than milk, the prices received by farmers
22 for beef cattle, and the percentage of unemployment in the state and nation as determined by appropriate state
23 and federal agencies;

24 (d) the prices of butter, nonfat dry milk, and cheese;

25 (e) the need, if any, for freight or transportation charges to be deducted by distributors from producer
26 prices for bulk milk.

27 (6) If the board at any time proposes to base all or part of an official order establishing or revising milk
28 pricing formulas upon facts within its own knowledge, as distinguished from evidence that may be presented to
29 it by the consuming public or the milk industry, the board shall, when publishing notice of proposed rulemaking
30 under authority of this section, notify the consuming public and the milk industry of the specific facts within its own

1 knowledge that it will consider; so that all interested parties will have an opportunity to be heard and to question
2 or rebut the facts as a matter of record.

3 (7) The board, after consideration of the evidence produced, shall make written findings and conclusions
4 and shall fix by official rule the formula under which minimum producer prices for milk in ~~classes I, II, and III~~ must
5 be computed.

6 (8) This section may not be construed as requiring the board to promulgate a specific number of
7 formulas, but it must be construed liberally so that the board may adopt a reasonable method of expression to
8 accomplish the objective set forth in subsection (7).

9 (9) Each rule establishing or revising milk pricing formulas must classify milk by forms, classes, grades,
10 or uses as the board considers advisable and must specify the minimum prices for the forms, classes, grades,
11 and uses.

12 (10) Distributors who have processing facilities in this state shall, whenever possible, purchase milk from
13 Montana producers for the processing of products to be sold in this state, ~~provided that~~ if milk is available from
14 Montana producers at the price set by the board.

15 (11) The board shall adopt rules ~~after notice and hearing in the manner prescribed by the Montana~~
16 ~~Administrative Procedure Act~~ to regulate transportation rates that distributors, contract haulers, and others charge
17 producers for interplant transportation of milk. An allowance for transportation of milk between plants may not be
18 permitted unless it is found by the board to be necessary to permit the movement of milk in the public interest.
19 The board may promulgate rules regarding the requirement for first call on Montana milk supplies, as provided
20 in subsection (10). Rules must be coordinated with those adopted pursuant to fair trade practices under
21 81-23-303.

22 (12) All milk purchased by a distributor must be purchased on a uniform basis. The basis to be used must
23 be established by the board after the producers and the distributors have been consulted.

24 (13) The board may amend ~~an official~~ a rule in the same manner provided in this section for the original
25 establishment of milk pricing formulas. The board may in its discretion, when it determines that the need exists,
26 give notice of and hold statewide public hearings affecting establishment or revision of milk pricing formulas.

27 (14) Upon petition of a distributor or a majority of a distributor's producers, the board shall hold a hearing
28 to receive and consider evidence regarding the advisability and need for a base or quota plan as a method of
29 payment by that distributor of producer prices. If the board finds that the evidence presented at the hearing
30 warrants the establishment of a base or quota plan, the board shall proceed by ~~official~~ order to establish the base

1 or quota plan.

2 (15) (a) Upon petition by 10% or 20 of the licensed producers in Montana, whichever is less, or upon
3 petition by a licensed producer-distributor or distributor, the board shall hold a hearing to receive and consider
4 evidence regarding the advisability and need for a statewide pooling arrangement as a method of payment of
5 producer prices, provided that at the hearing, the board shall, among other things, specifically receive and
6 consider evidence concerning production and marketing practices that have historically prevailed statewide. If
7 the board finds that the evidence presented at the hearing warrants the establishment of a statewide pooling
8 arrangement, the board shall proceed by ~~official~~ order to establish the arrangement. An ~~official~~ order is not
9 effective until it is approved in a referendum conducted by the board by mail among affected producers,
10 producer-distributors, and distributors. The ~~official~~ order must be approved by a majority of the producers,
11 producer-distributors, and distributors voting, representing more than 50% of the milk produced in Montana that
12 is to be included in the proposed pool, based on each producer's average monthly production for the 12 months
13 immediately preceding the referendum. If the board finds it necessary, the board may conduct more than one
14 referendum on any order.

15 (b) The order of the board establishing the statewide pooling arrangement may include other provisions
16 that the board considers necessary for the proper and efficient operation of the pool. These provisions may
17 include but are not limited to:

18 (i) a statewide base or quota plan contemplated in subsection (14);

19 (ii) the establishment of a pool settlement fund to be administered by the department for the purpose of
20 receiving payments from pool distributors or making payments to them as necessary in order to operate and
21 administer the statewide pool; and

22 (iii) the establishment of a pool expense fund for the purpose of offsetting the costs to the department
23 of administering the pool, funded by a special levy assessed against each pool producer.

24 (c) During the initial startup of a statewide pool, the department may draw from existing cash reserves
25 to fund a pool settlement fund and a pool expense fund, but withdrawals from the cash reserve must be
26 reimbursed.

27 (d) An order of the board establishing a statewide pooling arrangement that has been approved in a
28 referendum may be rescinded in the same manner as provided for approval of the order under subsection (15)(a).
29 The order may be amended without a referendum if, prior to amending the order, the board gives written notice
30 of its intended action and holds a public hearing ~~as required under the Montana Administrative Procedure Act.~~
